

Getting Started - New User Onboarding

Welcome to our platform! This guide will walk you through the initial setup and help you get the most out of your account.

Step 1: Account Setup

After signing up, complete your profile by adding your name, profile picture, and contact information. This helps our support team assist you more effectively.

Step 2: Workspace Configuration

Create your first workspace by clicking 'New Workspace' on the dashboard. Workspaces help you organize your projects and collaborate with team members. You can create multiple workspaces for different teams or projects.

Step 3: Invite Team Members

Go to Workspace Settings and click 'Invite Members'. Enter their email addresses and assign roles:

- Admin: Full access to all workspace settings and billing
- Manager: Can manage projects and team members
- Member: Can view and edit assigned projects
- Viewer: Read-only access to projects

Step 4: Create Your First Project

Click 'New Project' and choose a template or start from scratch. Add a description, set deadlines, and assign team members.

Step 5: Explore Integrations

Connect your favorite tools through our integrations page. We support Slack, GitHub, Jira, Google Calendar, and many more. Integrations help streamline your workflow and keep everything in sync.

Step 6: Support Resources

If you need help at any point:

- Knowledge Base: Browse our comprehensive help articles at help.example.com
- Live Chat: Click the chat icon in the bottom-right corner for instant support
- Email: Send questions to support@example.com
- Community: Join our community forum at community.example.com

Tips for Success:

- Use keyboard shortcuts to work faster (press ? to see the shortcut list)
- Set up notifications to stay updated on project changes
- Use tags and labels to organize your work
- Schedule regular backups of important data

We are glad to have you on board. If you have any feedback about your onboarding experience, please let us know at feedback@example.com.
